Name 10 Members On Steering Group

The campaign executive committee of the \$300,000 Mercy Hospital Building Fund Campaign was formed at a meeting held Monday night, July 13th at the Campaign headquarters in the Temple Building in Grayling. The committee, which will function as a steering committee, has no chairman, all members having equal status.

Present members of the campaign executive committee include Fred Bear, Roy DeWitt, M. J. Houlihan, Bill Joseph, Dr. C. R. Keyport, Elwyn Matheson, Roy Trudgeon, Fred R. Welsh, Vera Wunschel and George F. Suchl. Others may be added to the committee.

All committee chairmen will be appointed by the campaign executive committee. In the campaign program it is planned to have co-chairmen of all committees. One of the first committees to be formed will be a summer residents committee. The campaign executive committee stated jointly, "During the summer months, hundreds of summer residents are served by the Mercy Hospital, in addition to the soldiers at Camp Grayling. Mercy Hospital is glad to have this opportunity for service. This service, which has been given through the years, has been appreciated by many of the summer residents and soldiers who have been cared for. Therefore, we feel that many summer residents will wish to serve on the summer residents committee. We hope that those who are interested in volunteering to work on this committee will contact some member of the campaign executive committee or the Sisters at the Hospital, or phone the Campaign headquarters (Grayling 2001).

The campaign executive committee added, "It is essential that the proposed building plan be carried out immediately, because the present building is a wooden structure and outmoded as a hospital building. The large area which the Mercy Hospital serves justifies a modern fireproof building of about 40 beds. The present plans provide for 36 adult beds, 6 pediatric beds, an 8-bassinest nursery, plus an isolation bassinest, a delivery room, an emergency unit, two operating rooms, x-ray, laboratory, and other facilities essential to a modern hospital."

Two names were inadvertently left from the steering committee by the Avalanche last week. Our sincere apologies to Charles E. Moore and Robert F. Neafie.

Ford Master-Guide

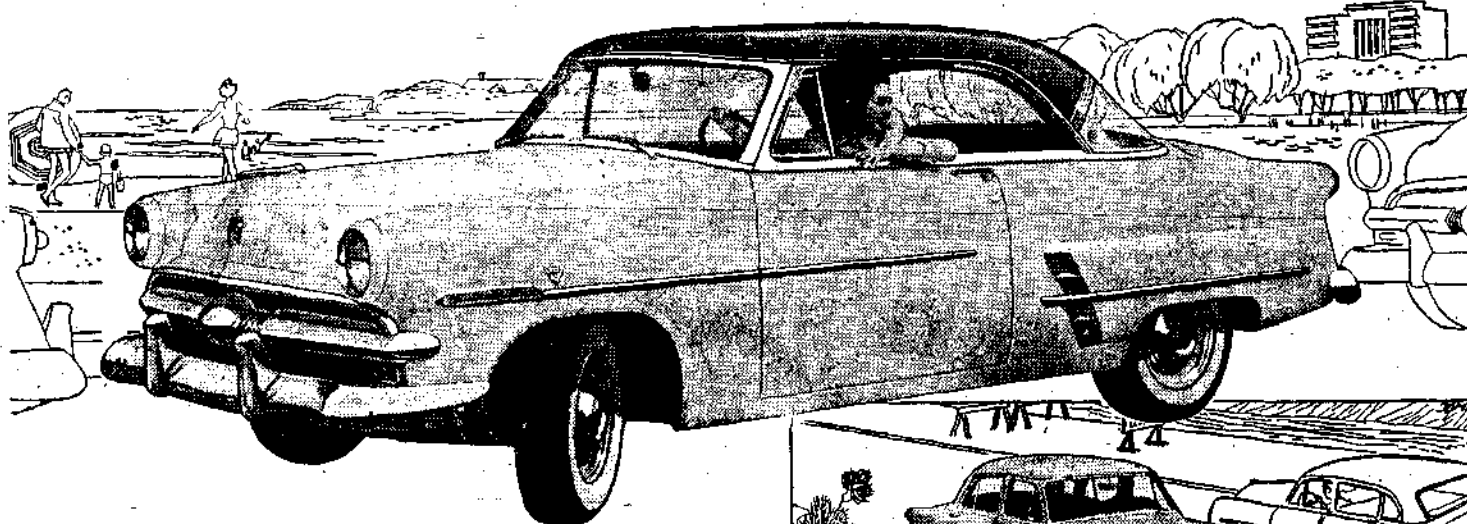

the last word in

Power Steering!

WHO NEEDS MUSCLES?

Master-Guide applies hydraulic steering power automatically... and in varying degrees as required... right at the steering linkage, close to the wheels. At the same time the system serves as a hydraulic shock absorber to keep road jars and jolts from your hands. As a result all you do is... guide the car... Master-Guide supplies the muscles.

It's the newest in a long list of Ford advancements that make this Ford the outstanding car for '53!

No other car near Ford's price has ever offered you so much!

Ford was the first in its field to bring you V-8 power. Today, Ford alone of all the low-priced cars offers you the smooth, unsurpassed performance of a V-8 engine. And Ford's Six—the most modern in the industry—with Overdrive, won the Grand Sweepstakes in this year's Mobilgas Economy Run.

Ford first brought to the low-price field a completely automatic transmission that combines the smoothness of a torque converter and the gas-saving "go" of automatic gears. Fordomatic remains the most versatile automatic you can buy.

Ford's new "ride" brings you road-bugging and bump-leveling qualities never before known in low-priced cars. Front end road shock alone has been reduced up to 80%. Easier-acting suspended pedals. Center-Fill Fueling and Full-Circle Visibility are just a few of the many important advancements first introduced by Ford.

And now Ford brings you the newest and finest in power steering... Master-Guide, a system exclusive in Ford's field! It's no wonder, then, that Ford is the "Worth More" car... worth more when you buy it... worth more when you sell it.

HELPS YOU OUT OF "TIGHT SPOTS!" The tougher the going the more Master-Guide works for you. For example, if you go off the pavement onto a soft shoulder or a rough, rutted road, Master-Guide provides the muscles to keep you on a steady course. At the same time, Master-Guide absorbs the shock that might otherwise be transmitted to the steering wheel. You'll find all handling is easier with Master-Guide and that parking requires only one-fourth the normal effort. Should Master-Guide ever lose its power, the standard steering mechanism will operate just as usual. Thus, Master-Guide provides new ease and stability, with a natural feel and full security, wherever you may drive. Optional on all V-8 models of extra cost.

Bureaucrats Don't Take Chances . . .

Countries in which the state owns or controls the oil industry have proven that if you want to keep oil in the ground let government be the boss.

In 1900 and 1901 Russia was the world's leading oil country, accounting for over 50 per cent of the world's oil. Since then her annual production has multiplied by 3, that of the United States by nearly 30. In 1951 she produced only 6½ per cent of the world's oil supply, though her original petroleum deposits were probably of about the same size as those of the United States.

In Mexico, Argentina, Bolivia and now Iran, the story is much the same and the reason for failure is simple. The very nature of oil exploration precludes regimentation. Every oil field in this country, with a few exceptions, was discovered as a direct result of competitive exploration. Some individual's conviction that oil could be found and his willingness to drill an exploratory well where others had given up, resulted in the discovery of such fields as Cuyama Valley and Signal Hill. The Williston Basin was just so much real estate until one company, contrary to the best judgement of many others went in and drilled a well that turned out to be a producer.

This spirited competitive search for new deposits is the secret of the American oil industry's success. No monopoly, whether public or private, with its single and final judgment can hope to match it, and a government monopoly is the most handicapped of all. In the United States where nearly 10,000 geologists and geophysicists aid in the search for new oil or gas, only one wildcat well out of nine is a producer. What bureaucrat could afford to risk his official neck on odds like that!

 INTERESTING ITEMS OF NEWS GATHERED FROM THE
 FILES OF THE AVALANCHE OF 23 YEARS AGO

July 17, 1930

The annual School meeting last Monday evening attracted little attention and there was the usual bandful in attendance. Emil Kraus and T. P. Peterson were re-elected trustees for three years. According to the reading of the minutes there was \$9,700 on hand at the close of the school year. The bonded indebtedness has all been paid up, and we have a fine school building to show for the money the tax payers spent.

The Queen contest of the Eastern Michigan Water Carnival at Bay City is in progress. It closes Saturday.

Roy Wolcott has returned to Grayling from Oxford and began employment as head filer at Kerry & Hanson Co.

Birthdays are always happy days and yesterday was one for Clayton Gorman. His mother had a lovely party for him.

The Grayling, a fish which once attracted anglers from all parts of the country to Michigan, has become a thing of the past. Many theories have been advanced as to why this fish once so plentiful in Northern Michigan, has become extinct, but in spite of observations and experiments it still remains a mystery.

New York Central R. R. is about to purchase the Boyne City, Gaylord and Alpena railroad valued at \$1,318,017. This railroad was organized in 1903 as a lumbering line.

Almond Barber, age 63, passed away on July 10th.

Last Thursday afternoon, Mrs. Percy Budd was hostess to 15 members of her club. Mrs. Frank Serven won the prize for game played and Mrs. Henry Feldhauser the penny prize.

Miss Clara Bugby is assisting at the Economy Store.

Mrs. Robert Ziebell entertained the ladies of the Danish Sisterhood at her home Tuesday afternoon.

The Connine Grocery is sporting a fine new delivery truck.

The Grayling Board of Trade will give away an auto for the benefit of our winter sports project.

Mrs. R. D. Connine has as her guest for the summer her old time neighbor and friend, Mrs. John Burt of Cheboygan.

Mrs. James Williams of Eldorado is quite seriously ill.

The Golf Auxiliary had their regular meeting on Wednesday. Mrs. Emil Giegling and Mrs. Russell Howard tied for the golf score. Mrs. Oscar Hanson held the high score for bridge and Mrs. N. Schlotz won the draw prize.

Miss Walma Burrows is enjoying a week's vacation in Detroit.

Another Diamond Team . . .

Above is the Grayling baseball team of 1906 with their mascot seated in the front. You should know some of these diamond stars of forty-seven years ago. Can you name one, two or more of them? If you can't and you want to know who they are, drop in and see Spike. He'll point out some of these baseball players of the 1906 season. LIBRARY NEWS

Only a few books have been bought during the last months, but we have had gifts of books from Mr. and Mrs. Simpson, Miss Florence Butler, also of special interest are two books dedicated to the memory of Ernest Borchers. These books were given in place of flowers. The titles are "Secrets of Successful Fresh Water Fishing" and "Sportsman's Arms and Ammunition Manual" by Jack O'Conner.

There was a meeting of the Trustees of the Library on Monday, June 30. They discussed the possibility of the penal fines not being given to the library, since the Supervisors still do not allow the required 3/10 of a mill tax money for the library.

Among other things discussed was the need for a library building also the Work-shop for the Librarians held July 20 through 24. This year Thursday, July 23 is Trustees' Day at the Higgins Lake Workshop. In the afternoon a special discussion group is being planned with the theme "Your Library, Your Government and You." Not only library board members but "Friends of the Library" or a representative of organizations that are interested are invited. Registration for Trustees day must be in by July 16. Lunch

An Honest Night's Sleep

Stim Johnson, just back from a business trip, tells about a hotel he stayed at one night.

"I hit town late and went right to the hotel. There was no clerk at the desk, but there was a sign that said: 'Gone to bed. Rooms \$3. Take a key. Pay when you leave. Sleep Well.'"

"Upstairs, the room was real clean, the bed comfortable, and I slept like a log. Came down in the morning—still no clerk. So I left three dollars at the desk and went on. Can you imagine folks that trustful?"

From where I sit, running a hotel on the honor system shows a real trust in people. And people always appreciate being trusted. Letting our neighbor follow his personal preference is a kind of trust too—trusting in his good judgment. I like a temperate glass of beer occasionally, you may prefer buttermilk, but let's hope neither of us "gasters" a complaint against the other.

YOUR MILK...

Grandpa says that in the good old days when he was courting Grandma, they would go riding in a buggy and Grandma would sing that grand old song, Anne Laurie. That was the time that a five dollar bill would buy a week's supply of groceries and a suit of clothes cost ten dollars. Derby hats were the style and ladies dragged the sidewalks clean with their long dresses. Mother was the family doctor. Her bark, roots and leaves boiled in water cured any ailment. For a quarter, the dentist would pull a tooth and he threw the pain in for free. A two cent coin bought a newspaper. A bathing suit weighed more than today's overcoat. Milk was five cents a quart. The customer furnished the container. At that time, any milk was good milk as long as the color was white. Now the milk business has changed like all else. We are still the producers but the consumers and Board of Health are the judges. Talk to Hunter's AuSable Dairy and have them tell you all about the fine points of putting out good milk.

New York Central Shopping List Now Totals \$189 Million a Year

1. YOU'D EXPECT New York Central to be a big
buyer of iron and steel products. And it is.
Last year, it bought 150,000 tons. But your Rail-
road is also a major farm customer. To stock dining
cars and work trains, it spent \$4 million on milk,
meat, fruit, vegetables and other food in '52.

2. TIM-M-BER! Naturally, Central needs lots of loco-
motive fuel. Last year, it purchased 4,685,000
tons of coal and 197,600,000 gallons of diesel oil.
But it takes wood as well to run a railroad. In 1952,
Central paid \$13 million for crossties, lumber and
other forest products.

3. 150,000 ITEMS are included on Central's shop-
ping list. They range from hard rock for track
ballast to soft, foam rubber for upholstery. And from
tons of paper for tickets to diamonds for drills in
New York Central's shops. In 1952, the total bill for
purchases came to \$189 MILLION!

4. EVERYBODY'S CUSTOMER! Besides the things it
buys, New York Central pays wages, salaries,
payroll taxes and pensions of \$493 million a year.
Most of that is spent in local stores along the line.
One more way your Railroad helps business in your
town and state. And that's always the CENTRAL IDEA!
